

Dear Mike,

I'm again impressed by quality of work, and the quick turnaround of our latest tenant improvement project (Blenz Coffee Shop at 1201 Robson St. Vancouver). Indeed as Development's Vice President I've gained the full confidence in your work and I know that when the work is done by your crew; it's done right, it's done quickly and it's done professionally.

In the renovation of many of our coffee shops in the recent years, I've always had the great experience when dealing with MYK Construction, since you and your project managers always:

- gave us the fairest quote
- Provided the quickest realistic schedule, which you stood by it even if it meant to get your trades to work around the clock
- Continuously delivered the superior quality workmanship which by far surpassed the standard of industry

It is always been a great pleasure to deal with your professional staff and I'm looking forward to upgrading many of our future stores through MYK Construction Ltd.

Larry W. Kinash
Vice President Development
Blenz Coffee Ltd.
