Testimonial:

I've had an exceptional experience when using MYK Construction as the general contractor for my two commercial projects in Downtown Vancouver, the Clinic at 212 Robson St. and the Pharmacy at 1192 Melville St.

MYK consists of a team of educated professionals with tons of experience ready for any construction challenge. What I especially like about them is their efficiency and high performance. In one occasion, when others needed several weeks to prepare a shop drawing for my clinic, they surprised me when they were able to hand over the key of my beautifully built clinic (a complete tenant improvement project) within two months.

They are punctual, strictly follow their schedule, their price is very reasonable, and very fun to work with.

I truly enjoyed dealing with MYK and highly recommend this construction company.

Sincerely,

Bob Mehr, R.Ph;FIACP
